5. **Update on CAP Committee Projects and Measure A 2% TOT Renewal - Lindsay Romack**  
The Capital Projects Advisory Committee (CAP) is co-convened by Placer County and the NLTRA. The 13 seats include representation from: Business Associations, Special Districts, Ski Resorts, NLTRA (At-large) and Placer County (At-large). The CAP Committee objectives are to review grant applications for capital projects, ensure projects are consistent with Tourism Master Plan priorities, hold public meetings to review projects and further engage the community and recommend expenditure of the 2% TOT funds. The TOT funding for the FY 2021/22 grant cycle was \$4,945,000. 13 applications were received and \$3.24 million recommended to support projects in eastern Placer County. This was approved by the Placer County Board of Supervisors on January 25<sup>th</sup>, 2022. These projects are consistent with what is outlined in the Tourism Master Plan.

Romack shared a spreadsheet of the projects being funded and stated that the CAP committee is in its early stages with a new visioning process. This includes looking at priorities and process and adjusting the grant cycle process as well.

Romack also provided some education around the Measure A and the proposal to reauthorize 2% TOT in North Lake Tahoe. This was first put out to the voters in 1996 and has gone back to the voters in 2002 and 2012 and will be on the ballots in June of 2022. The 2% additional tax generates about \$4 million annually for our local region. This fund has also been used to secure matching funds of more than \$300 million in local projects. A 2021 community survey shows 81% initial support for TOT ballot measure. Romack highlighted that there is no end date in the Measure A ballot language as previously. It will be in place until the voters decide it's no longer needed. A voter guide was mailed out end of April and the ballots went out on May 9<sup>th</sup>. Election day is June 7<sup>th</sup>.

Villaman question if there are talking points regarding workforce housing that can be shared in support of this measure. Romack touched on some of the initiatives that are currently being worked on and a Lease to Local program that will be presented to the NLTRA Board of Directors in May.

## 6. NLTRA Organizational Update

Burke gave an update on mission statement, stewardship principles and position statement as some of these are fairly new. Karwowski gave an overview of the new organizational structure and all the new positions that the company is hiring for. Three of these positions, Vice President of Tourism Development, Director of Finance and Director of Destination Management/Chamber are currently posted. Karwowski also updated the committee on the new committees being formed. Two committees were just formed, TBID Advisory and a TBID Zone 1 Committee. The organization is currently seeking new members for a NLTRA TOT Committee. The deadline to apply for this committee is May 10<sup>th</sup>. Karwowski shared a committee summary and who governs each of these committees.

Hummer recommended allocating a certain amount within the Marketing, Promotion & Special Event budget for large events and if those events doesn't happen those funds should be utilized for something else. Burke will bring sustainability discussion on event and event resource guide as a topic to the May meeting.

\* Inttopia Census: Total number of rooms reported by participating Inttopia properties as available for short-term rental in the reporting month. This number can vary monthly as inventories and report participants change over time. \*\* Destination Census: The total number of rooms available for rental within the community as established by the and adjusted for properties that have opened / closed since that time. This number varies infrequently as new properties start, or existing properties cease operations.

DESCRIPTION: The Reservation Activity Outlook Report tracks occupancy, average daily rate (ADR), and revenue per available room (RevPAR); the key metrics most of interest to lodging properties. The report combines the data sets of participating properties into a destination wide view that features three data sets (providing that sufficient information is available) including: i) current YTD occupancy, ii) last YTD occupancy, iii) last season's ending occupancy. The Reservation Activity Outlook Report is generated on a monthly basis, usually for a 12 month subscription period, and is created from data provided by a group of properties participating in a cooperative manner, and representing a valid set of data as a result. Report results are provided only to those properties who participate by submitting their data. Additionally, participating properties can order (on an a-la-carte basis) an individual report which shows the reservation activity of their property, measured against an aggregated set of competitive properties that they choose from amongst Inttopia's other participants. As is the case in all Inttopia data, all information provided by individual properties is strictly confidential, except when aggregated with other data and indistinguishable as a result.

\*Based on providing complete pacing data within a given month of occupancy only. Results may differ from those presented elsewhere in report if property set differs. \*\*Results for "Percent Variance in incremental fill" indicate how room nights booked during the month just ended compare to room nights booked during the same month in the prior year, for occupancy in the month just ended and for the upcoming five months (as well as the six-month period in total). These results provide an indication of the degree to which booking activity occurring during the month just ended was greater or less than booking activity occurring in the same month a year ago -- i.e. a measure of the strength of booking activity occurring during the month just ended.
